

EcoBleach™

Manufactured With a Conscience

Dear customers,

We are extremely pleased to introduce this new line of factory coated cedar shingles:

WASKA® ECOBLEACH™

We understand that there is an overwhelming demand for products that are environmentally friendly, green and quite honestly, healthier for Mother Earth. In that focus, the **EcoBleach™** offers all that consumers loved about the discontinued "Bleaching Oil" formula, but produced with acrylic latex instead of oil.

Features

- Protects and enhances the wood
- Advanced SunBlock® UV defense
- Extended color life
- Provides a superb mildew resistant coating
- Low VOC 0.7lbs/gal (81g/L)

We know what you may be wondering... ***Does this mean that we can no longer purchase Weathering Stain™ from Waska?***

Not at all!

It is still one of our top selling lines and we will continue to offer it.

We invite you to contact us to order your **EcoBleach™** sample package today.

The Waska Factory Coating Team

Happy Selling!
