

Manufacturing With a Conscience

Dear valued customer,

We are extremely pleased to introduce this new line of shingles to our current offering of raw/green eastern white cedar shingles. We have combined **Extra R&R / Grade A** with **Clear R&R / Grade B** to produce...

WASKA® WALLGRADE™

It was born from our newly constructed and fully automated cedar shingle plant. This product has been created following the same high standards and quality control criteria you have come to expect from Waska.

Features

- Produced in our brand new **state of the art automated shingle plant**
- Higher percentage of **wider shingles = faster installation**
- Exclusive and patented technology guarantees **100% R&R** (resquared and rebuted) shingles
- **Clear of defects** up to the 6" exposure line
- Remains the **thickest** eastern white cedar shingles in the industry
- **Most consistent length**; always 15 ¾"

Waska® WALLGRADE™

Warranty

The wood is guaranteed against decay for forty **(40) years**
